

*Jose Antonio Segarra is an Avionics Engineer at the C-130 Systems Program Office (United States Air Force) at Robins AFB in Georgia. He has dedicated his professional career of 35 years to the United States Air Force because he is passionate about military and aviation. He has served in three distinctive capacities: military, contractor and civilian. During his six years as military officer he served during Operation Desert Storm, in several locations as Engineer, Weapons Controller and Program Manager. His professional philosophy is living life by serving others; working with integrity and doing your best and letting God guide the way. Mr. Segarra served as a dedicated scout leader who won the Cub Master of the Year Award for the Central Georgia Council in 2004. He has been involved with Habitat for Humanity in the construction of homes for fellow citizens in Central Georgia and directed the Altar Servers group for over six years at Sacred Heart Catholic Church in Warner Robins, Georgia.*

*Mr. Segarra currently supports the USAF C-130 Foreign Military Sales Program by providing technical avionics engineering support to over 35 countries around the world that operates this aircraft.*

*For the last 29 years Mr. Segarra has lived in Warner Robins, Georgia. He is happily married to Arlys Segarra for 33 years. They have three children: José Andrés, Juan Carlos and Camille and one grandchild living in Australia: Mateo.*

*Mr. Segarra received a Bachelor's Degree in Electrical Engineering from University of Puerto Rico in 1986 and a Master's Degree in Engineering from Mercer University in 1997.*

*He enjoys family, flying remote control airplanes and traveling around the world.*

*He is 100% fluent in Spanish and enjoys doing home electrical work/repairs for friends.*
